COVID-19 Testing Resources

Testing is an important tool to help reduce the spread of COVID-19.

For information on the different types of COVID-19 tests and criteria to help understand which type of test is right for you, reference this webpage:

[COVID-19 Testing: What You Need to Know](#)

Self-Testing Resources

Self-tests can be taken at home or anywhere, are easy to use, and produce rapid results. A self-test is also called a "home test," an "at-home test," or an "over-the-counter (OTC) test." For more information on when to use a self-test, how to use self-tests, and what to do after you interpret your results, reference the CDC [Self-Testing page](#).
